DSE ASSESSMENT REPORT · CONFIDENTIAL

EMPLOYEE

Sarah Shaw

COMPANY

[user_company_name]

DATE

12/05/2026

ASSESSMENT ID

SimplyDSE-58

OVERALL RISK LEVEL

35

MEDIUM RISK

Your DSE assessment indicates a medium risk level. Some improvements are needed to ensure optimal ergonomic safety.

Score: 35/100

CATEGORY PERFORMANCE

Category	Score	Status
Eye Test	70/100	HIGH RISK
Chair Test	50/100	MEDIUM RISK
Safety Test	70/100	HIGH RISK
Driving Test	60/100	HIGH RISK
Desk Test	0/100	LOW RISK

✓ KEY STRENGTHS

- ✓ Workstation setup meets DSE standards

⚠ AREAS FOR IMPROVEMENT

- ⚠ Eye health practices require attention
- ⚠ Posture and seating need improvement
- ⚠ Safety protocols need review
- ⚠ Driving ergonomics need urgent review

RECOMMENDATIONS

Schedule an Eye Test

Your eye test score indicates potential visual strain. Book an eye examination and review your screen brightness, distance, and ambient lighting.

Improve Your Posture

Adjust your chair height so feet rest flat, knees are at 90 degrees, and your lower back is fully supported by the backrest.

Review Safety Practices

Check cable management, ensure clear walkways around your workstation, and verify electrical equipment is properly maintained.

Review Driving Ergonomics

Adjust your seat position, steering wheel height, and take regular breaks on long journeys to reduce strain.

This report is valid for 12 months. If discomfort occurs, notify your manager and request reassessment.
